

ILASS-Europe EVENTS

The deadline for Abstract submission to the 25th ILASS-Europe 2013 in Chania is approaching: 15th February 2013!

Check for all the details at the ILASS-Europe 2013 website: www.iclass2013.org
or click here:

25th ILASS-EUROPE 2013 – Chania, Crete
1st – 4th September 2013

[\(for detailed information please click here\)](#)

An ISBN number was assigned to the Proceedings of ICLASS 2012:

ISBN 978-88-903712-1-9

Both the book of abstracts as well as the conference proceedings (including the ISBN number) are available for download now at www.iclass2012.org

ESPECIAL ANNOUNCEMENT

POST-DOC POSITION AT BRNO UNIVERSITY OF TECHNOLOGY IN THE AREA OF LIQUID ATOMIZATION & SPRAY SYSTEMS

Brno University of Technology, CZ offers a Post-Doc position in the area of two phase flow, namely liquid atomization and spray systems. The position is opened at the department of thermodynamics and environmental engineering.

The researcher will work closely with Prof. Jicha and Dr. Jedelsky by using new experimental facility for spray investigations, using several laser-based measurement techniques such as PDA, PIV, PLIF. The work is focused on the study of atomization principles, development and design of new atomizers, their testing, an update of experimental equipment etc.

A limited experience with this topic does not necessary eliminates the candidate from the position, given the candidate is smart enough and hard working person to quickly get knowledge and to be a useful member of the team.

If the position is not filled in this call, i.e. by 15th of February 2013, a second call will be shortly announced.

For more information please see the pdf. document enclosed in this newsletter or follow this link:

WORKSHOPS

SPRAY & AEROSOL TECHNOLOGY: AN INTENSIVE OVERVIEW

A 2-Day Course for Industry & Researchers

University of Salford Campus in Central Manchester
10th – 11th April 2013

For complete information please [click here](#)

Additional info is given at the websites:

Perdac: www.perdac.com

Prof Yule: www.andrewyule.co.uk

Spray Research Group: www.cse.salford.ac.uk/SRG

EIGHTH 2-Day Course

PERDAC
Personal Development Advanced Courses

ATOMIZATION FOR METAL POWDERS

28th February & 1st March 2013

Central Manchester (UK)
28th February and 1st March 2013

This intensive course will be held in Central Manchester (UK) and will include sessions covering the main methods of atomizing metals, the specific requirements for different classes of metal, the design, operation and economics of plant, measurement methods and an introduction to modelling and prediction techniques. All lunches and refreshments, printed notes and a CD containing the course material, are included. The start and finish times of the Course are 10.00 Thursday and 15.30 on Friday respectively. Registrants will have opportunities to discuss their interests with the course presenters and the presenters tailor their presentations to optimise their relevance to registrants.

FUTURE EVENTS

STEC – Naples, Italy
13rd-14th June 2013

STEC is an international Symposium gathering academics and industrial experts to discuss on the recent developments and actual trends in the fields of

Solar Thermal Power Plant and Power Quality. It covers a wide range of topics such as Experimental and Numerical Thermodynamic Analysis, Engines and Heat transfer, among others.

For detailed info, visit STEC website:

<http://stec2013.unina.it/index.html>

The 5th International Conference on Spray Deposition and Melt Atomization – SDMA 2013 will take place in Bremen, Germany, 23rd-25th September 2013. The deadline for the submission of Abstracts is the 15th March 2013. More details can be found in the attached file and here below:
